Description: Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain Model Year ("MY") 2018-2020 E-Class 4MATIC (213 platform), E-Class Coupe/Convertible (238 platform), S-Class Coupe/Convertible 4MATIC (217 platform), and S-Class 4MATIC (222 platform) vehicles, increased wear of the universal joint on the drive shaft could occur. In this case, there could be a loss of lubricant at the universal joint, which in the further course of operation could lead to the fracture of the universal joint. As a result, the connection between the transfer case and the front-axle transmission would no longer be assured, and a loss of propulsion without warning cannot be ruled out. As a result, the risk of a crash would be increased. An authorized Mercedes-Benz Dealer will check the drive shaft on the affected vehicles and replace it, if necessary.

In this case, there could be a loss of lubricant at the universal joint, which in the further course of operation could lead to the fracture of the universal joint. As a result, the connection between the transfer case and the front-axle transmission would no longer be assured, and a loss of propulsion without warning cannot be ruled out. As a result, the risk of a crash would be increased.

Remedy: An authorized Mercedes-Benz Dealer will check the drive shaft on the affected vehicles and replace it, if necessary.

CARFAX Glossary

CARFAX Well Maintained - Regular Oil Changes

CARFAX identifies a "Well Maintained - Regular Oil Change" vehicle as having a regular oil change history when all its recommended oil changes, based on the vehicle's maintenance schedule, have been reported to CARFAX. CARFAX uses the manufacturer's schedule and assumes normal driving conditions. When an oil change schedule is not available, CARFAX may analyze reported service events to determine what is typical for the same make and model vehicle. Dealers and service shops may publish different recommended service schedules.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
